This spacious and beautifully designed floor plan provides comfortable and contemporary living while also offering space to design your home your way.

Choose from eight different front elevations, each featuring unique optional stone, and intricate brick details. Step in from the covered front porch and enjoy a foyer with boxed ceilings, welcoming you inside. The foyer brings you to the flex room, a perfect space to transform it into whatever room you need. Make it a playroom for the kids or even the man cave he's been craving. This floor plan also has the option to turn the flex room into a private study by adding double doors to close the space.

Day-to-day life is made easier in the open-concept kitchen which is centered in the heart of the home. The kitchen features a large central island, stainless steel appliances, ample counter and storage space, and a corner walk-in pantry. The kitchen opens to a breakfast nook, complete with a sunny window seat, perfect for early morning coffee or additional seating.

Enjoy a spacious family room flooded by natural light, welcoming friends and family to gather. Choose to add warmth to this space by adding an optional corner fireplace. The family room also provides direct access to the rear-covered patio. Choose from two different sizes to suit your outdoor living needs.

Designed for rest and relaxation, the master suite is tucked away from the foyer. Enjoy a spacious room and walk-in closet, as well as the adjoined master bathroom featuring a dual sink vanity, large garden tub, and separate walk-in shower with a seat. For optimal privacy, choose to add an optional master retreat in lieu of the second bedroom.

Making them perfect for kids or guests, two additional bedrooms are in their own wing off the foyer. Both bedrooms have easy access to a full bathroom and a full-sized utility room, making it easy to keep your home tidy.

For optimal privacy and convenience, the kitchen provides direct access to the rear two-car garage. If more space for parking or storage is needed, choose to add in the optional third-car garage.
