Welcome to a floor plan that is as unique as you are – a canvas for your life's next masterpiece. Our latest offering boasts a harmonious blend of elegance, comfort, and flexibility, tailored to meet the desires of the discerning home buyer yearning for personalization.

With three well-appointed bedrooms and two full baths nestled within its cozy walls, this home is an invitation to both relaxation and celebration. The heart of the home is the family room, a spacious area designed to host your cherished memories and daily delights. Adjacent to it, you'll find a charming nook, a perfect spot for intimate meals or morning reflections with a cup of coffee.

For those who treasure versatility, the flex room is your dream come true. Whether you're envisioning a quiet study, a lively entertainment space or even a fourth bedroom, this room adapts to fit your vision. If you cherish a good book, consider opting for a dedicated study in lieu of the flex room – a sanctuary for your intellectual pursuits.

Further personalization is at your fingertips with choices like adding a cozy fireplace to gather around during chilly evenings or extending your living space to the outdoors with an optional covered patio – ideal for those cherished alfresco moments.

Your choices continue with two distinct elevations, each offering its own charismatic appeal, ensuring that even the exterior of your home is an expression of your unique taste.

Crafted with you in mind, this floor plan caters to the nuanced needs of modern living while also fostering a deep sense of community and belonging. It's more than just a house; it's a home tailored for every chapter of your story.

We invite you to take this opportunity to mold a home to be unequivocally yours – because at the end of the day, a home should be a reflection of who you are and all you aspire to be.
