A home is much more than just four walls and a roof. It is a place of security, love, and comfort. Dramatic entry with two adjacent box-ups, grand stonework, intricate brick, and a striking porch will leave a lasting impression. Towards the front of the home, you'll find a formal dining room and a private study. The kitchen, breakfast nook, and family room look like they belong together thanks to the gorgeous wood-look tile floors - your very own family hub! Need something to keep you warm on those winter nights? Look no further than the inviting stone fireplace in the family room. Or step out into the fresh air of the sizable covered patio, perfect for having a barbecue or enjoying some quality relaxation time beneath nature's beauty and serenity. Whether you're preparing an intimate dinner for two or a gourmet feast, the kitchen will make cooking a pleasure. There's an island, beautiful white cabinets, whirlpool stainless steel appliances, a walk-in pantry, and granite countertops. The secondary bedrooms in this home are a dream come true for all. Grouped in their own area, these bedrooms come complete with built-in closets and even have a second full bathroom conveniently nearby. Everyone can get ready for the day without ending up in a jam. The master suite sits at the rear of the layout with a large window, a bench seat offering views over the backyard, and easy access to the utility room. There's a walk-in closet and a master bath that feature a garden tub, a vanity, and a private toilet. The corner tub maximizes the space and allows for a separate shower with a seat. Completing this impressive layout is an attached two-car garage. Your friends and family will find this home inviting and warm while you enjoy all the spaces to entertain and make memories for years to come.
