This stunning home has an open floor plan with living areas designed to host all your friends and family while providing spaces designed for a quiet retreat.

Choose from six different front elevations, each featuring unique optional stone, and intricate brick details. Step in from the covered front porch and into the foyer which welcomes you into the private study. Finished with double doors, this space creates the perfect home office or a quiet area to enjoy hobbies without being disturbed. Across the foyer is the formal dining room which opens to the family room, making it easy to keep everyone connected when entertaining.

Connected by a butler's pantry is the open-concept kitchen. The kitchen features a large central island, stainless steel appliances, ample counter and storage space, and a large walk-in pantry. It also opens to a breakfast nook that provides direct access to the rear covered patio. Choose from two different sizes to suit your outdoor living needs.

The spacious family room features a wall of windows and offers an open space for friends and family to gather. Choose to add warmth to the family room by adding an optional corner fireplace.

Tucked away off the family room is the master suite, allowing parents a quiet retreat at the end of each day. Enjoy a large room with vaulted ceilings and an adjoined master bathroom featuring dual vanities, large garden tub, separate walk-in shower with a seat, and a huge walk-in closet.

Two additional bedrooms are located on the opposite side of the home in their own wing. Both bedrooms have easy access to a full bathroom with a dual sink vanity, as well as a coat closet and linen closet. For added convenience, a powder room and full-sized utility room, and direct access to the two-car garage are located at the front of the home.
