Pretty as a picture, this charming two-story home offers refined yet relaxed living with a host of optional extras for your new dream home. There are six facades to choose from, including a lovely combination of brick and stonework, plus shutters, awnings over the windows, a double-height entrance, or even a beautiful bay window for a touch of elegance; the choice is yours.

Inside, the layout is modern and stylish, with open-plan living perfect for entertaining. Set off the foyer is the dining room and the master suite, offering single-level living for those who prefer the convenience of no stairs.

The master suite is spacious and light-filled with a large walk-in closet and a luxurious bath with a soaking tub, a walk-in shower, a seat, and twin sinks. Set in the home is the gourmet kitchen with a dishwasher, a walk-in pantry, and a large center island. The kitchen is open to the dining nook with a built-in seat and the family room with the option to add a cozy fireplace.

Large windows allow plenty of natural light to fill this living space. At the same time, a door opens out to the rear patio, and you can choose whether you want a smaller covered deck or an extended patio ready for hosting friends. A powder room, a utility room with an optional washer and dryer, plus the attached two-car garage, complete this beautiful home.

Upstairs, the standard floorplan includes two bedrooms, both with closets, plus a full bath and a loft that overlooks the lower-level family room. If you need more bedrooms, you can add a fourth bedroom. You can add a game room above the family room or add both a game room and a media room with a closet for additional entertainment options.
