You can make your mark on the home even before stepping inside with six gorgeous elevation options to choose from, including three with stone feature accents that will set your home apart from everyone else in the neighborhood.

The breakfast nook and family rooms are complete with oversized windows that frame views over the backyard. There are two sizes of covered patios to select from, creating the perfect outdoor living area to host guests or relax at the end of the day and relish your new lifestyle.

Whether you're a regular master chef or simply love preparing meals for guests, the kitchen is designed to delight. There's a center island and ample counter space along with a corner walk-in pantry. From here, you can overlook the sun-soaked breakfast nook or chat with friends in the family room while cooking up a storm.

Two of the guest bedrooms are set off the foyer and have spacious closets as well as easy access to a full bath. Bedroom four also has a built-in closet and could be transformed into a study where you could comfortably work from home.

The private and spacious master suite awaits. Here, you can take in glorious views over the backyard while double doors open into your luxurious master bath. There are twin vanities, a garden tub, and a separate shower where you can wash away the stresses of the day. A large walk-in master closet is also all yours to enjoy, with the option of adding a door through to the utility room for added convenience.
