This well-designed home is on a half-acre homesite and is perfect for families! Wood floors flow from the entry through the family room, kitchen, and nook. This well-designed home has it all! The family room is spacious and features a cozy cast-stone fireplace. The kitchen is beautiful with granite countertops, stainless steel appliances, and an oversized pantry with lots of shelving neatly tucked alongside the utility room for efficient task completion. The nook area will accommodate a formal dining table seating 8-10. From here, you also have access to the rear-covered patio. Tucked away from the family room for optimal privacy is the master suite, creating a quiet space for parents to retreat at the end of the day. The master bathroom features a dual sink vanity, a large garden tub, a separate walk-in shower with a seat, a linen closet, and a large walk-in closet. Two additional bedrooms are located towards the front of the home in their own wing, making them perfect for kids and guests. Both bedrooms have easy access to a full bathroom, and linen closet and provide direct access to the two-car garage, located at the front of the home. This clever concept can be built to suit all your family's needs.
