Feel at home from the moment you step inside. It will appeal to those who love to entertain with an open-concept design that invites you to flow seamlessly from one space to the next. A quality kitchen sits in the heart of the layout, with a walk-in pantry, granite countertops, stainless steel appliances, a center island, and it views over the breakfast nook. A large family room offers space for relaxation and, for those craving a warm and cozy feel, a stone-to-ceiling fireplace makes this a perfect place to gather with loved ones throughout winter. The luxurious owner's suite enjoys a private position, complete with a decadent master bath with twin sinks, a walk-in shower, and a soaking tub. There is also a walk-in closet, and this wing houses the utility and access to the two-car garage. The guest bedrooms are tucked away on the other side of the layout, complete with closets and easy access to the hall bath. This customizable floor plan allows you to create a space that will truly feel like home.

CONCEPT 2050
