2.5 

2,795 Sq Ft 

2 

This two-story floor plan gives you the space to create room for whatever you need while providing quiet spaces to retreat.

Choose from eight different front elevations, some offering unique optional stone, and intricate brick details. Step inside and the vast foyer with boxed ceilings welcomes you into your home. Just off the foyer is the formal dining room, an open space designed for seamless entertaining. Across the foyer is the private study with double doors and a large closet, creating an ideal space to work from home or enjoy hobbies.

Continue down the foyer and pass the staircase to enter the open-concept kitchen, a space designed to be the hub of the home. With ample storage and counter space, stainless steel appliances, large island, and large walk-in pantry, the chef of the family will certainly enjoy this space. The kitchen is open to a breakfast nook, a nice space for quick, everyday meals.

The family room is flooded by natural light, creating a space for friends and family to gather. Choose to add warmth by adding an optional corner fireplace. The family room also provides direct access to the optional rear covered patio. Choose from two different sizes to suit your outdoor living needs.

Located at the front of the home and tucked away from the living spaces is the all-inclusive master suite. Enjoy a large room with vaulted ceilings and an adjoined master bathroom complete with a dual sink vanity, large garden tub, separate walk-in shower, and a huge walk-in closet. For optimal rest and relaxation, choose to add a master retreat in lieu of the dining room. A powder room, utility room, and access to the two-car garage complete the lower level.

Complete with two additional bedrooms, full bathroom, and huge game room, the upper level offers the ultimate kid's retreat! If additional space for kids or guests is needed, choose to add a fourth bedroom and third bathroom in lieu of the powder room and study. You can also choose to add the study in lieu of the dining room if this space is needed.
