Treat yourself to style and elegance with this beautiful four-bedroom home. A covered porch welcomes you home while inside; a flex space and a formal dining room are set off the foyer. Step into the main living space, where an open-plan and light-filled layout allows a seamless flow from the family room into the kitchen and dining nook. A walk-in pantry, an oven/microwave, and a large center island allows space for meal prepping and entertainment. A fireplace can be added to the family room to create a warm and inviting feel, and you can also choose to add one of two covered patios to ensure a private and relaxed space to gather with friends.

The luxe owner's suite offers a retreat for the hustle and bustle of everyday life. Double doors lead into the grand ensuite with twin sinks, a walk-in closet, and a soaking tub for the ultimate relaxation. The three bedrooms, all with walk-in closets, have a large hall bath with twin sinks. The utility, located at the front of the house, has an option to add an upper cabinet. Ample closet storage completes this layout, while a host of optional extras allow you to customize this residence to make it your own.

In addition, you can choose to add a third garage to extend the parking and storage space. There is also an option to change the flex room to a study.
